

**BIOSOFT**

Engineering your Solutions

**Biosoft** is an engineering company operating in the global village and supplying some of the leading companies with tailor made and Turn-Key solutions.

With it's 20 years of experience Biosoft has gained extensive knowledge and practical know how in designing full fit solutions to the pharmaceutical, biotechnological and chemical industries including planning and building from scratch sterile facilities.

**Biosoft** manages all stages of project from define – design stage thru construct - commission up to validation or hand over stage. Whenever it is required Biosoft provides auxiliary services, such as design, validation, and integration

**Biosoft** is committed to the highest engineering standards in order to achieve cGMP as required by the various authorities (e.g. FDA, EMEA), GAMP 5

## **Our Clients turn to us when they need professional answer and Quick response in:**

**Feasibility testing and counseling:** Biosoft analyzes characteristics of the project, testing alternatives, and provide customer cost estimates.

**Engineering design and project management:** process engineering, mechanical engineering, air conditioning engineering and software engineering, which enables biosoft to provide solutions to complex engineering problems.

**Validation support:** Biosoft has very good experience in preparing SOP's, documentation for FDA approval, including validation files, IQ, OQ , PQ simulation protocol, validation documents such as SSO.

**Technical support and maintenance:** With the Client business continuity in mind Biosoft maintains Quick Response Approach (QRA) even after the project has been completed. Excellent service packages are offered to support a smooth operation through the facility's life cycle.

**Process & Industrial Automation:** From stand-alone process equipment to complex, multi-vessel process trains, Biosoft provides solutions and services for a wide variety of process automation, such as: Controllers / PLCs/DCS , SCADA / HMI Servers and Workstations, S88 Batching Software, Continuous and Batch Historians, MES, and OEE/

**Turn Key Total integration solution:** our unique approach as a Turn-Key integrator Biosoft self-performs all of the core professional services for the project. Biosoft aims to offer you optimum solutions that fit Client requirements and minimize financial risks.

## **Under its role as a Turn-Key System Integrator Biosoft provides:**

Automation Solutions | Clean rooms | Modular Facilities | Production facilities  
| Sterile facilities.
